Chapman University is seeking a faculty member to engage in innovative research at the interface of nutritional science, pharmacology, biochemistry, and food. The faculty member will have a joint appointment in the Schmid College of Science and Technology (Biochemistry & Molecular Biology and Food Science) and the School of Pharmacy, with the primary appointment being in SCST. The faculty member will have opportunity to collaborate on research and teaching initiatives with faculty across the breadth of disciplines represented by the two units. Research interests may include study of structure, properties, functionality, and bioavailability of food biomolecules, the effects of other ingredients, food matrices and processing on functionality, the pharmacology of functional food ingredients, metabolomics, and the biochemical mechanisms by which food and food components impact health. Preference would be given to candidates whose projects can integrate with our pharmacy, biochemistry, molecular biology, food science and clinical faculty focusing on improving health and chronic disease prevention. The ideal candidate will have a Ph.D. in nutritional science, biochemistry, nutritional pharmacology, or food science or related field with demonstrated excellence in teaching. Teaching responsibilities will include graduate courses in nutritional pharmacology and functional foods, and undergraduate courses in nutritional biochemistry and medicinal chemistry. The ability to direct undergraduate and graduate student research is required.

Chapman University, located in the heart of Orange County, California, offers traditional undergraduate programs in the arts and sciences and select pre-professional and graduate programs. Ranked in the top tier of western universities by U.S. News and World Report, Chapman has gained national prominence with its commitment to excellence through research and innovative teaching. More information about the Schmid College of Science and Technology and the School of Pharmacy is available at [http://www.chapman.edu](http://www.chapman.edu). Chapman University is an Equal Opportunity Employer, committed to providing career opportunities to all people, without regard to race, color, religion, gender, age, national origin, sexual orientation, disability, or veteran status. Chapman University requires background checks for all new employees.
