

**Product Development & Sourcing** – we have 2 positions available. The positions are responsible for the development of Member’s Mark items in various categories but also the sourcing of those products by working with suppliers. One position is in our Dry Grocery area (snacks, cereal, bars, spices, etc.) and the other is in our Consumables/OTC area (OTC, Supplements, Laundry, Baby, etc.). Again, no specific scientific discipline is required, but the hiring managers for these will be looking for more fundamental product knowledge. For context, we hired this same role last year in our fresh area and they had a Masters in Food Science and no experience, first job out of school but they had interned before.

**Suzanne Jervis, Ph.D.**

Director – Product Insights

Desk: 479-258-7561
