The Program
Upon successfully completing 3 years of study at Northwest Agriculture and Forestry University (NWAFU) and one at the University of Nebraska-Lincoln (UNL), students in this program will receive a B.S. degree in Food Science & Technology from both universities.

The incumbents will provide instruction for the 3+1 cooperative Food Science and Technology Program of study that is now established between the UNL, and NWAFU in Yangling, China.

Responsibilities
The incumbents will be responsible for teaching upper-level undergraduate courses in one of the areas of Food Science: Food Chemistry/Analysis and Nutrition, Food Engineering/Processing, or Food Microbiology/Food Science, in accordance with their area of expertise. Teaching responsibilities will be primarily in Yangling, although instruction in Lincoln may be possible during some semesters. The incumbent will have full responsibility for at least two courses per semester, and will also assist with other upper level FDST courses as needed. The incumbent will also be expected to assist the 3+1 program director in administration of the cooperative program.

Application Details
To view details of the positions and create an application: Go to http://employment.unl.edu
Search for a position:
F_160009 – Food Chemistry/Analysis and Nutrition Specialist
F_160010 – Food Engineer/Processing Specialist
F_160011 – Food Microbiologist/Food Science Specialist
Click on “Apply to this job” and complete the application. Attach a letter of interest, curriculum vitae and contact information for three professional references (or arrange to have reference letters sent to: Dr. Randy Wehling, 1901 North 21St, Room 272, P.O. Box 886205, Lincoln, Nebraska 68588-6205). Also, attach in one document: 1. A statement of your teaching philosophy and area of expertise. 2. How you will go about developing a creative component of applied research to strengthen the collaborative links between the food science faculty at NWAFU and UNL. This creative component will be through The Food Processing Center. Review of applications will begin on March 30, 2016 and continue until the position is filled or the search is closed.
